Follow the steps to configure the IP address

btain an IP address automatically				
. 168 . 9 . 101				
. 255 . 255 . 0				
. 168 . 9 . 1				
se the following DNS server addresses:				
. 168 . 9 . 1				

The computer needs to be set on the same network segment **192.168.2.X** as the device, so the first three values of **192.168.2** are fixed, and the **last X** needs to be set within 2-254 (each computer connected to this device, You need to select a value (within 2-254). Everyone is an independent IP address that cannot conflict or conflict with the IP address of the device itself. The default factory IP of the device is **192.168.2.10**).

After completing the above operations, open any browser and enter the IP address of the device for access management. (The default IP address of the device is 192.168.2.10)
